

Digital Portfolio Project

Grade Level: 7-12

Prerequisite:

Students will need to have some experience with the following:

- Internet searching
- Digital camera
- Video production (such as PowerPoint) or Web Page creation (such as FrontPage)
- DVD burner (optional)

Instructions:

This is a year long project. Students will need to collect materials on an ongoing basis throughout the year. Students will need to have at least one class per week to work on their project. Students will produce a video or web page of their achievements, assignments, evaluations, important events, photos, etc. that occur throughout the year.

Suggested items:

- Scanned documents
- Artwork (photographed or scanned)
- Photos of events (music contests, sports events, family events can also be included)
- Projects/participation from other classes/clubs

Grading:

Teacher will need to set benchmarks with due dates for grading purposes.

- Research
- Collection of materials
- Planning/organization
- Creativity/originality
- Use of technology
- Oral presentation
- Final project

NOTE: For students that do not have experience/access to the prerequisites can develop a portfolio into a 3-ring binder.
